PROJECTS

WhiskerWag — WebApp for Pet Care

Live Demo

Web Development

Technologies: Django Rest Framework, Tailwind CSS, PostgreSQL, React JS

- Built a web app for pet care with a responsive UI using React and Tailwind CSS.
- Integrated JWT-based authentication using Django REST framework.
- Implemented Lottie animations to improve user engagement.

CodeVerse — Programming Learning App

GitHub Link

Android Development

Technologies: Java

- Built an intuitive programming learning app with notes, video tutorials, coding practice, and quizzes to enhance user engagement.
- Implemented the DRY principle for efficient code management for seamless user experience.

Face-Mask Detection

GitHub Link

Machine Learning

Technologies: Python (Machine Learning), Node JS, HTML, CSS

- Created a machine learning model using OpenCV to detect if a person is wearing a face mask.
- Deployed the model on a web app with a Node.js backend for real-time detection.

Spotify Clone — Web Player: Music for Everyone

GitHub Link

Web Development

Technologies: HTML, CSS, JavaScript

- Developed a clone of Spotify's web player interface with responsive design.
- Implemented features like music playback, album functionality, and smooth, uninterrupted listening experience.

EDUCATION
